I have enjoyed discussing your career options with you, and am happy to offer you a position as a 40-hour per week Full Time Web Developer, starting April 26th 2022. The job includes up to four weeks of paid time off per year. The starting wage is \$25.00 per hour, for 40 hours per week.

Currently our mobile application is written using React Native. We are working on moving STEDI to React Web, and finishing the mobile application so that it has complete functionality to be ready for the Google Play and Apple Stores.

In addition the UPRO Web Forms project is currently written in Java without HTML, CSS or Javascript. We would like to move to NodeJS with React. I will be helping you write code, and look forward to working with you. We will also be working with the Universe database as part of the UPRO Forms project.

As part of the work week, I will meet with you daily Monday-Friday for about one hour. We can meet virtually or in person. For the remainder of your hours per week, you are also welcome to work virtually at your location of choice. If you accept the job, you will be required to track your hours daily using a website url I will send you.

If you choose to accept this job, it is considered an at-will agreement, which means you can terminate the agreement at any time if you choose to do so. Please do your best to provide 2 weeks advance notice if you need to terminate the job. It is my feeling that you have a great start to your career, and I look forward to helping you further your career goals in Web Development. Please email me, call, or text if you have any questions.

Sincerely,

801-719-0908
